

XVI. MULTIPLE REGISTRANTS' SEALS ON A DOCUMENT

If a registrant has been in responsible charge of work done on a document, the registrant's seal should be on it. Where multiple registrants in responsible charge provide content on the same document, all such registrants should seal the document, and, if there is any question, description of the areas of responsibility should be included.

Cover Page: A registrant is not required to seal the cover page of a set of construction documents unless the cover page contains architectural, engineering, or landscape architectural information (i.e. building code information). All registrants in responsible charge who work on a set of specifications are required to seal either the cover page of the specifications, or the cover page(s) for the section(s) of the specifications they produce.

For the purpose of this rule, "working drawings or plans" means "construction documents."
